Company **BIOFIRM GmbH**  
Test **Product testing according to RL 0110-1**  
Validity **01 / 2019**

Products	QUH <sub>Factor</sub>	Scale
BIOFIRM Silicate Paint	1,53	
BIOFIRM Fixative	1,53	

QUH<sub>Factor</sub>: max. achievable = 1,0, min. achievable = 5,0

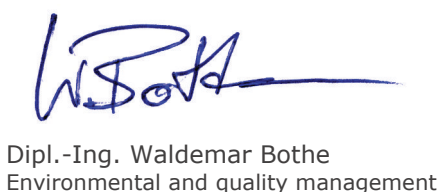

These products were tested (data check) regarding the raw materials and the full declaration of all ingredients by the Institute for quality management and environment hygiene (IQUH).

From the available information, the respective QUH<sub>Factor</sub> (quality, environmental and human compatibility factor) has been determined by test parameters for transparency and origin of raw materials, emission assessment and hazardous material classification. The lower the QUH<sub>Factor</sub> the higher the safety that the product has a positive effect on the indoor air and the indoor climate.

Institute for quality management and environment hygiene  
Weikersheim, 27th January 2017

Karl-Heinz Weinisch  
Head of the institute
